

The Landesmusikakademie of Saxony

After extensive building measures by the Free State of Saxony the Landesmusikakademie was put into operating in 2010.

In the course of the rebuild the highest demands for the equipment were made in the areas of acoustics, climate and light. Now the former Marstallgebäude offers excellent conditions for musical activities in all areas. In the Landesmusikakademie vocal and instrumental amateur musicians of all age group will find their musical home. Furthermore the rooms offer very good conditions for the realisation of chamber music courses, for advanced training courses and continuing education of music pedagogues and ensemble leaders. Furthermore, we are also welcoming visitors from other disciplines, like dance or theatre.

The chamber music hall (for an audience of 100) provides the Landesmusikakademie and its participants of workshops with a concert hall of excellent conditions.

During the summer the two castle courtyards are open to musical events.

In addition the academy has 7 rehearsal rooms with sound proof cladding and a recording studio. Of course the users may draw on a great variety of musical instruments and event technologies.

The Landesmusikakademie cooperates with the European Youth Hostel in Colditz.
